Repairs on routes in Eastern Hungary have been done by Hungarian and foreign workers. These workers were mainly Rumanian and Hungarian political prisoners.

1. Route No. 3 (Budapest - Gödöllő - Hatvan - Gyöngyös - Miskolc - Tornyosnemeti)

Reconstruction work is finished. The road is concrete and the width varies from 7 to 8 meters.

2. Route No. 4 (Budapest - Cegléd - Karcag)

The shoulders of this road are in excellent condition. The road is surfaced with concrete and at least eight meters wide, though in places it is 12 meters wide. The bridge over the Tisza at Zolnok - Szajol has been rebuilt.

3. Route No. 23 (Miskolc - Banréve)

The road has been put in good condition and widened. It is now 6 to 8 meters wide and surfaced with macadam.

5. Route No. 34 (Miskolc - Felsőzsolca - Szerencs - Sátoraljaújhely)

As of 15 June 1950, the repairs were finished; even the shoulders had been reinforced. The width is 7 to 8 meters. The road is covered with concrete to a depth of 3 to 4.5 cm. (Another source states that road is covered with macadam.) Russian engineers directed the work and Russian machines were used.

6. Routes Nos. 33 and 35. (Bodrogkisfalud - Nyíregyháza - Nagykároly)

This road is completely repaired. Part of it is concrete and part macadam.

7. Route No. 36 (Csap-Záhony - Nyíregyháza - Debrecen)

This road has been completely reconstructed under the direction of Russian technicians. It has a uniform width of eight meters and is covered with 3.7 cm. of concrete.

8. Route No. 37. (Karcag - Debrecen - Nyirbator - Berocssasz)

The sections damaged during the war have been refinished with concrete; the other sections are macadam. The bridge over the Szaros River at Vasarosnamony has been rebuilt.

9. Route Nos. 203 and 206 (Aszod - Vac)

The repairs on this road were being made (as of the end of October 1950) and were to have been finished by 1 November. The original road was macadam, but it has been widened to 8 meters and entirely covered with concrete.

10. Route 331 (Felszsolca - Muhi - Debrecen)
